WEGASOFT – COMPANY INTRODUCTION

What has now transformed into one of the best software houses in Pakistan, Wegasoft Technologies started out as but a humble website designing company. Aiming to fill in the gap we felt in the market, as it related to the state of graphics designing, this passion project has evolved into a multi-media powerhouse. We at Wegasoft are pride ourselves at staying fiercely committed to our goal; which is two-pronged – to ensure quality above all else and to maximize customer satisfaction every time – so that you can reliably expect delivery of consistent results every time without having to ever compromise on quality.

As the best software house in Karachi, Wegasoft deals in the provision of a whole host of premium services; including, but not limited to –website designing and development, WordPress website development, graphics designing including UI and UX integrated designing as well as exceptional dealing in all form of e-commerce portal development and the integration of specialized management systems which are optimized for performance via Learning Management System (LMS).

VISION & MISSION

The guiding philosophy for all Wegasoft employees is to continuously strive for better. This consistent drive to aim for higher and optimize every aspect of our firm has modelled our outlook for the future as one where we become pioneers of software development in Pakistani and beyond. We believe in always dreaming big and aiming higher and our commitment only serves to refine our vision.

Wegasoft Technologies aims to transform the technological landscape of software designing in Pakistan. With a firm emphasis on always driving towards better quality and ensuring 100% customer satisfaction every time, the Wegasoft team reflects the paradigm shift in how the Pakistani community utilizes the current technologies available to them.

COMMITMENT

In Wegasoft Technologies, we build technology solutions that meet the highest quality standards through which our customers achieve perfection and success in their business. We strive hard to meet the highest customer satisfaction levels by providing high quality technology solution on time... every time. **Technology Solutions, Satisfaction** and **Success** are the Corner stone's of Wegasoft Technologies.

CORE VALUES

Since its conception, Wegasoft Technologies has stood by the motto of 'Follow the customer'. Our holistic approach to providing solutions hence has always been customer-forward and it is precisely because we value the viewpoint of our client that we are able to customize our solution according to their unique dilemma.

Wegasoft Services

WEBSITE DESIGNING

Web designing is the planning and the process of collecting ideas which covers the look and feel of a website. Our expert designers design your website according to market demand and client wishes. We have professional web designers who transform the client's wishes into a dreamy work of art. Get a design you'll love — guaranteed.

LOGO DESIGNING

The Logo design is a very important part of web designing. If you think the logo is just the name of some colors, fonts and fancy lines, then trust me, that's a big misconception. The logo is brand's identity that reflects the personality of your business. We have professional designers who transform the client's wishes into a dreamy work of art. Get a design you'll love — guaranteed.

PRINT & ELECTRONIC MEDIA

We are living in the new world and Print & Electronic media is the need of every business today. Print media have now become the most important forms of advertising. It generally includes newspapers, Magazine, Books, Billboards, Banners/Posters, Brochures, Flyers and Newsletters etc.

SOCIAL MEDIA MARKETING

Social Media Marketing offers a full suite of social media marketing Pakistan services for your business. Whether you are a company of 10 or 100,000, we can help brand your business online, engage customers and boost sales. Our services range from web page design and search engine optimization to online media marketing and email campaign.

CORPORATE IDENTITY

You make a world of difference in your company's success by having a recognizable and professionally designed Corporate Identity. The importance of the Corporate Identity design cannot be denied because it is the overall image of a corporation, company or firm or business in the minds of diverse audiences such as customers and investors and employees.
